Clayton Lagerquist

The Very Big, the Very Fast, and the Very Small: The new physics simplified Clayton Lagerquist

Clayton Lagerquist is an amateur physicist with a degree in physics from Minnesota State University and a graduate degree in engineering from the University of Minnesota. He is now retired from an active career in health physics while maintaining his readings in cosmology, relativity, and quantum mechanics. He hopes to bring some of his knowledge of the latest findings in physics to those who are discovering some of these wonders for the first time. His candor about his lack of knowledge in some areas may spur others to investigate these areas in more detail for themselves.
