Common Sense (Penguin Classics)

Thomas Paine

Common Sense (Penguin Classics) Thomas Paine

Published anonymously in 1776, the year of the American Declaration of Independence, Paine's *Common Sense* became an immediate best-seller, with fifty-six editions printed in that year alone. It was this pamphlet, more than any other factor, which helped to spark off the movement that established the independence of the United States. From his experience of revolutionary politics, Paine drew those principles of fundamental human rights which, he felt, must stand no matter what excesses are committed to obtain them, and which he later formulated in his *Rights of Man*.

For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
