*Love's Madness* is an important new contribution to the interdisciplinary study of insanity. Focusing on the figure of the love-mad woman, it presents a significant reassessment of the ways in which British medical writers and novelists of the nineteenth century thought about madness, femininity, and narrative convention. The book centers around studies of novels by Jane Austen, Sir Walter Scott, Charlotte Brontë, Wilkie Collins, and Charles Dickens, as well as of previously neglected writings by Charles Maturin, Lady Caroline Lamb, and Edward Bulwer-Lytton, among others.
