## **Inorganic Chemistry** James E. House

This concise textbook meets several objectives. First, the topics included were selected in order to provide essential information in the major areas of inorganic chemistry (molecular structure, acid-base chemistry, coordination chemistry, ligand field theory, solid state chemistry, etc.). These topics form the basis for competency in inorganic chemistry at a level commensurate with the one semester course taught at most colleges and universities.

The second objective has been to stress fundamental principles in the discussion of several topics. For example, the hard-soft interaction principle is employed in discussion of acid-base chemistry, stability of complexes, solubility, and predicting reaction products.

Third, the presentation of topics is made with an effort to be clear and concise so that the book is portable and user friendly. This book presents in convenient form a readable account of the essentials of inorganic chemistry that can serve as both as a textbook for a one semester course upper level course and as a guide for self study.

Figures, tables, and end-of-chapter problems round out this pedagogically rich, thematically balanced text for advanced undergraduate and graduate level students.

- . Concise coverage maximizes student understanding and minimizes the inclusion of details students are unlikely to use.
- . Discussion of elements begins with survey chapters focused on the main groups, while later chapters cover the elements in greater detail.
- . Each chapter opens with narrative introductions and includes figures, tables, and end-of-chapter problem sets.

### From reader reviews:

#### **Shelia Coggins:**

Information is provisions for folks to get better life, information presently can get by anyone from everywhere. The information can be a knowledge or any news even a concern. What people must be consider when those information which is inside the former life are hard to be find than now could be taking seriously which one would work to believe or which one the actual resource are convinced. If you get the unstable resource then you get it as your main information you will have huge disadvantage for you. All of those possibilities will not happen within you if you take Inorganic Chemistry as your daily resource information.

#### **Valerie Garrison:**

Reading a guide can be one of a lot of task that everyone in the world loves. Do you like reading book consequently. There are a lot of reasons why people fantastic. First reading a guide will give you a lot of new facts. When you read a e-book you will get new information simply because book is one of many ways to share the information or maybe their idea. Second, studying a book will make anyone more imaginative. When you studying a book especially fictional book the author will bring someone to imagine the story how the characters do it anything. Third, you could share your knowledge to other folks. When you read this Inorganic Chemistry, you can tells your family, friends along with soon about yours book. Your knowledge can inspire average, make them reading a book.

#### **Roger Hodge:**

Beside this specific Inorganic Chemistry in your phone, it could possibly give you a way to get more close to the new knowledge or information. The information and the knowledge you are going to got here is fresh through the oven so don't be worry if you feel like an old people live in narrow commune. It is good thing to have Inorganic Chemistry because this book offers for your requirements readable information. Do you oftentimes have book but you would not get what it's all about. Oh come on, that will not end up to happen if you have this in your hand. The Enjoyable agreement here cannot be questionable, such as treasuring beautiful island. So do you still want to miss the idea? Find this book as well as read it from currently!

#### **Irvin Ehlers:**

That e-book can make you to feel relax. This specific book Inorganic Chemistry was colorful and of course has pictures on there. As we know that book Inorganic Chemistry has many kinds or style. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and think you are the character on there. So , not at all of book are generally make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book for yourself and try to like reading this.
