The Death Penalty As Cruel Treatment And Torture: Capital Punishment Challenged in the World's Courts William A. Schabas

William A. Schabas reviews the history of the philosophical and legal interpretations of this fundamental norm, and closely examines its impact on the way the world's courts are currently grappling with the issue of how to implement capital punishment. This is a fascinating study of evolving human rights norms that in turn have generated a rich body of international comparative case law favoring the progressive limitation and ultimate abolition of the death penalty.
