Joss Whedon has much to teach his fans, as he unfurls epics of sacrifice and heroism for superheroes and ordinary people. *Firefly*, like *Alien: Resurrection*, was his anti-authoritarian dystopia, while *Buffy the Vampire Slayer* emphasized girl power and individuality in a world of monsters. *Dollhouse* tackled identity, memory and the soul, reaching from fantasy into philosophy, just as *The Cabin in the Woods* satirized the nebulous "Greater Good." Now, *Agents of S.H.I.E.L.D.* and *The Avengers* explore heroism, teamwork, and personal responsibility. Whedon has independent works too, all explored from the paranormal romance film *In Your Eyes* to his feminist skits for *Equality Now*. In comics, such as *X-Men*, *Runaways*, *Sugarshock*, and *Buffy*, he explores unconventional teams and chosen families. From Angel's quest for faith and redemption in a world of nihilism to the smaller stories of family and friendships in *The Office*, *Glee*, *Parenthood*, and *Roseanne*, not to mention *Much Ado About Nothing*, Whedon offers lessons to improve the world and our roles within it. This book compares themes, motifs, and archetypes across all his works, teasing out the common threads and the messages within.
