Lives Full of Struggle and Triumph: Southern Women, Their Institutions, and Their Communities (New Perspectives on the History of the South)

"A splendid sampler of the very latest and best of scholarship in the field of southern women's history."--
Thomas Appleton, Eastern Kentucky University

Spanning the sweep of southern women's history from colonial times to the late 20th century, this collection represents the best scholarship on the lives and experiences of black and white southern women. Through topics as diverse as the rise of the United Daughters of the Confederacy and the organization of labor in the apparel industry, these essays explore how southern women constantly moved beyond the traditional confines of race, class, and gender to resist the restrictions of a patriarchal society and assert themselves through organizations and institutions in their communities and personal lives.
