## **Arnold Sommerfeld: Science, Life and Turbulent Times 1868-1951** Michael Eckert

The subject of the book is a biography of the theoretical physicist Arnold Sommerfeld (1868-1951). Although Sommerfeld is famous as a quantum theorist for the elaboration of the semi-classical atomic theory (Bohr-Sommerfeld model, Sommerfeld's fine-structure constant), his role in the history of modern physics is not confined to atoms and quanta. Sommerfeld left his mark in the history of mathematics, fluid mechanics, a number of physical subdisciplines and, in particular, as founder of a most productive "school" (Peter Debye, Wolfgang Pauli, Werner Heisenberg, Linus Pauling and Hans Bethe were his pupils, to name only the Nobel laureates among them). This biography is to a large extent based on primary source material (correspondence, diaries, unpublished manuscripts). It should be of particular interest to students who are keen to know more about the historical roots of modern science. Sommerfeld lived through turbulent times of German history (Wilhelminian Empire, Weimar Republic, Nazi period). His life, therefore, illustrates how science and scientists perform in changing social environments. From this perspective, the biography should also attract readers with a general interest in the history of science and technology.

### **From reader reviews:**

#### **June Edwards:**

Do you certainly one of people who can't read pleasant if the sentence chained within the straightway, hold on guys that aren't like that. This Arnold Sommerfeld: Science, Life and Turbulent Times 1868-1951 book is readable by you who hate the perfect word style. You will find the info here are arrange for enjoyable studying experience without leaving actually decrease the knowledge that want to offer to you. The writer regarding Arnold Sommerfeld: Science, Life and Turbulent Times 1868-1951 content conveys objective easily to understand by most people. The printed and e-book are not different in the information but it just different in the form of it. So , do you still thinking Arnold Sommerfeld: Science, Life and Turbulent Times 1868-1951 is not loveable to be your top listing reading book?

#### **Eldon Hall:**

This Arnold Sommerfeld: Science, Life and Turbulent Times 1868-1951 is great reserve for you because the content that is certainly full of information for you who else always deal with world and have to make decision every minute. This specific book reveal it facts accurately using great coordinate word or we can claim no rambling sentences in it. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but hard core information with beautiful delivering sentences. Having Arnold Sommerfeld: Science, Life and Turbulent Times 1868-1951 in your hand like having the world in your arm, data in it is not ridiculous 1. We can say that no reserve that offer you world in ten or fifteen small right but this publication already do that. So , this is certainly good reading book. Hi Mr. and Mrs. active do you still doubt that will?

#### **Darrell Mayo:**

The book untitled Arnold Sommerfeld: Science, Life and Turbulent Times 1868-1951 contain a lot of information on this. The writer explains her idea with easy technique. The language is very easy to understand all the people, so do definitely not worry, you can easy to read the item. The book was published by famous author. The author brings you in the new era of literary works. You can actually read this book because you can read on your smart phone, or product, so you can read the book with anywhere and anytime.
