Eyes: Windows of the Body and the Soul Ladean Griffin

Iridology - the science of reading the eyes - dates back to the 12th century. For years, the author, LaDean Griffin studied the works of Dr. Bernard Jensen who pioneered the science 80 some years ago and brings to you a layman's guide to Iridology. The pages are filled with full color images of eyes along with detailed charts and everything you need to become proficient in Iridology. LaDean explains a simple method for reading the iris and thereby recognizing problems in the body. By pinpointing inherent weaknesses and problems within the body, a knowledge of Iridology can be valuable in determining future problems. Based on her own research and discoveries, she discusses how to successfully respond to what the eyes reveal. Before and after pictures and page after page of testimonials support her discoveries. With this volume comes her complete, additional book, Essentials of Iridology. With two books in one this will be a great addition to your health library.
