Information Technology Investment: Decision-making Methodology, (2nd Edition) Marc J. Schniederjans, Jamie L. Hamaker, Ashlyn M. Schniederjans

From the individual to the largest organization, everyone today has to make investments in IT. Making a smart investment that will best satisfy all the necessary decision-making criteria requires careful and inclusive analysis. This textbook provides an up-to-date, in-depth understanding of the methodologies available to aid in this complex process of multi-criteria decision-making. It guides readers on the process of technology acquisition what methods to use to make IT investment decisions, how to choose the technology and justify its selection, and how the decision will impact the organization.

Unique to this textbook are both financial investment models and more complex decision-making models from the field of management science so that readers can extend the analysis benefits to enhance and confirm their IT investment choices. The wide range of methodologies featured in the book gives readers the opportunity to customize their best-fit solutions for their unique IT decision situation. This textbook is especially ideal for educators and students involved in programs dealing with technology management, operations management, applied finance, operations research, and industrial engineering.

From reader reviews:

Peter Cox:

Your reading sixth sense will not betray an individual, why because this Information Technology Investment: Decision-making Methodology, (2nd Edition) publication written by well-known writer who knows well how to make book which can be understand by anyone who have read the book. Written inside good manner for you, leaking every ideas and writing skill only for eliminate your own personal hunger then you still question Information Technology Investment: Decision-making Methodology, (2nd Edition) as good book not just by the cover but also by the content. This is one publication that can break don't determine book by its include, so do you still needing a different sixth sense to pick this!? Oh come on your reading through sixth sense already said so why you have to listening to a different sixth sense.

Stephanie Gilley:

Are you kind of stressful person, only have 10 or perhaps 15 minute in your morning to upgrading your mind ability or thinking skill actually analytical thinking? Then you have problem with the book than can satisfy your limited time to read it because pretty much everything time you only find reserve that need more time to be go through. Information Technology Investment: Decision-making Methodology, (2nd Edition) can be your answer given it can be read by you who have those short free time problems.

Bobbie Burke:

This Information Technology Investment: Decision-making Methodology, (2nd Edition) is completely new way for you who has curiosity to look for some information mainly because it relief your hunger of information. Getting deeper you onto it getting knowledge more you know or else you who still having little bit of digest in reading this Information Technology Investment: Decision-making Methodology, (2nd Edition) can be the light food in your case because the information inside this particular book is easy to get by means of anyone. These books create itself in the form and that is reachable by anyone, that's why I mean in the e-book form. People who think that in publication form make them feel tired even dizzy this reserve is the answer. So there isn't any in reading a guide especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss this! Just read this e-book sort for your better life as well as knowledge.

Sally Canady:

That book can make you to feel relax. That book Information Technology Investment: Decision-making Methodology, (2nd Edition) was vibrant and of course has pictures on the website. As we know that book Information Technology Investment: Decision-making Methodology, (2nd Edition) has many kinds or variety. Start from kids until youngsters. For example Naruto or Detective Conan you can read and believe you are the character on there. So , not at all of book usually are make you bored, any it makes you feel happy, fun and relax. Try to choose the best book for you personally and try to like reading that will.
