Self-Reference (Center for the Study of Language and Information - Lecture Notes) Thomas Bolander, Vincent F. Hendricks, Stig Andur Pedersen
An anthology of previously unpublished essays from some of the most outstanding scholars working in philosophy, mathematics, and computer science today, *Self-Reference* reexamines the latest theories of self-reference, including those that attempt to explain and resolve the semantic and set-theoretic paradoxes. With a thorough introduction that contextualizes the subject for students, this book will be important reading for anyone interested in the general area of self-reference and philosophy.
