## **History of Modern Design (2nd Edition) (Fashion Series)** David Raizman

Filling the gap for an extensively illustrated history of modern design, this introduction provides a balanced chronological survey of decorative arts, industrial design and graphic design from the eighteenth through the twentieth centuries. Focusing on the appreciation of design as a creative activity, as well as an enterprise conditioned by economic, technological and social history, Raizman includes the study of products and furnishing designed for mass consumption, and examines the social context for the democratization of culture.
