## **Architecture Concepts: Red is Not a Color** Bernard Tschumi

An autobiographical look at the work of a seminal modernist architect. This is the first comprehensive treatment of the architecture of Bernard Tschumi. Part monograph, part architectural theory, and part story, the book narrates a three-decade journey through a personal history of architecture and architectural ideas, intertwining theory, practice, and hypothetical projects with forty built works. From Tschumi's many written works, such as *Architecture and Disjunction* and *The Manhattan Transcripts* to such renowned projects as the Parc de la Villette in Paris, major concert halls in Geneva, Switzerland, and in Rouen and Limoges, France, a high-rise in Manhattan, the Vacheron Constantin Headquarters in Geneva, the Paris Zoo, and the Acropolis Museum in Athens, the book presents a profusely illustrated tour through the work of the architect, set in the context of a rich history of architectural ideas. Written for the layperson as well as the specialist, the book is an entertaining narrative about the condition of architecture today.
