The Fish in the Forest: Salmon and the Web of Life Dale Stokes

The Fish in the Forest is an elegantly written, beautifully illustrated exploration of the complex web of relationships between the salmon of the Pacific Northwest and the surrounding ecosystem. Dale Stokes shows how nearly all aspects of this fragile ecosystem—from streambeds to treetops, from sea urchins to orcas to bears, from rain forests to kelp forests—are intimately linked with the biology of the Pacific salmon. Illustrated with 70 stunning color photographs by Doc White, *The Fish in the Forest* demonstrates how the cycling of nutrients between the ocean and the land, mediated by the life and death of the salmon, is not only key to understanding the landscape of the north Pacific coast, but is also a powerful metaphor for all of life on earth.
