Global Value Chains: Linking Local Producers from Developing Countries to International Markets (Amsterdam University Press - EADI)

Global Value Chains: Linking Local Producers from Developing Countries to International Markets (Amsterdam University Press - EADI)

This book contains seven case studies of global value chains as well as a discussion of the theory behind these chains. Specifically, it examines the impact of global value chains on local upgrading strategies, as well as the role of governments, buyers, donors, and civil society in influencing value chains and the importance of partnerships as mechanisms for value chain upgrading. An impressive group of eminent scholars deliver a thorough examination of this important economic and political phenomenon.
