Creating and Maintaining Safe College Campuses: A Sourcebook for Enhancing and Evaluating Safety Programs

This book serves as a sourcebook to enhance and evaluate safety programs, generate new solutions and interventions, comply with new legislation, and present practical steps and guidelines to establish best practices. It pays particular attention to the factors that may give rise to crime, considering high-risk drinking and examining the intersection between hate crimes and violence. Devoting chapters to discrimination in all its forms, whether against international students, students of color, or on the basis of ethnicity or sexual orientation, it reviews the range of issues relating to harassment and violence against women and engages with hazing and the presence of guns on campus.

The authors pay attention to the different circumstances that may apply in specific institutional types, such as community colleges and minority-serving institutions. They offer perspectives from administrators, campus security, student affairs personnel, faculty and policy makers.

The purpose is to provide readers with the context and tools to devise a comprehensive safety plan. For administrators operating with few formal support systems, advice is given on how to co-opt individuals and resources from around the campus and the local community to assist in maintaining a safe and welcoming campus.
