Estudios sobre la psicosis (Spanish Edition)

José María Álvarez

Estudios sobre la psicosis (Spanish Edition) José María Álvarez

Nueva edición reescrita y ampliada. Trece estudios componen este libro. En todos se analiza la psicopatología de la psicosis, en especial los fenómenos elementales, el delirio y la alucinación. Aunando la tradición filosófica, los clásicos de la psiquiatría y el psicoanálisis, el autor analiza las experiencias del psicótico, punto de partida de su investigación. A medida que éstas se exploran siguiendo el testimonio directo del psicótico, se va perfilando una lógica interna que proporciona una explicación cabal sobre el nacimiento a la locura, las distintas posiciones que el sujeto puede adoptar en ella y las estrategias de las que dispone para reconducir su verdadero drama, tan inefable como solitario. De esta manera, partiendo de la psicología patológica se consiguen configurar las bases que convienen al trato y al diálogo con el alienado. Al desarrollar esta modalidad de análisis se aspira a articular la psicopatología y la terapéutica, las dos dimensiones de la clínica en su estado más puro. A diferencia de las dos ediciones anteriores, esta obra se amplía con tres nuevos estudios que le aportan unidad y visión de conjunto. En ellos se analizan sobre todo las formas normalizadas o discretas de la locura y se precisan las experiencias genuinas que la caracterizan y definen. Los artículos que integran este libro son el ejemplo cabal de una psiquiatría distinta. En medio de la vorágine positivista, cuando el sentido de la clínica ha perdido su vocación por la escucha y las preguntas, surge de pronto el discurso de José María Álvarez para resucitar la tradición y actualizar los enigmas. *Convencido de que el positivismo poco tiene que decir ante el lenguaje de la locura, el autor, en un abrazo que define a la perfección la ternura de su método, recoge la palabra de los psicóticos con dos manos distintas. Con una, enguantada, pone sobre la mesa los saberes de la psiquiatría clásica, aprovechando sus observaciones y revelando la lógica interna de su pasado, mientras que, con la otra, desnuda, alumbra la escena con las luces de la hermenéutica psicoanalítica.* (Fernando Colina) *Un ensayo hecho con entusiasmo y con rigor conceptual, en donde, a partir de la teoría freudiana y de la enseñanza de Lacan, trata José María Álvarez de acercarnos al enigma de la psicosis.* (José R. Eiras)
