The Everyday World As Problematic: A Feminist Sociology (Northeastern Series on Feminist Theory)

Dorothy E. Smith

In this collection of essays, sociologist Dorothy E. Smith develops a method for analyzing how women (and men) view contemporary society from specific gendered points of view. She shows how social relations – and the theories that describe them – must express the concrete historical and geographical details of everyday lives. A vital sociology from the standpoint of women, the volume is applicable to a variety of subjects, and will be especially useful in courses in sociological theory and methods.
